**Oslo Børs TradElect/Infolect migration project:
Cancellation of announced Dress Rehearsal 30 January and revised
timetable to be announced**

Oslo Børs has previously announced that it will move trading in cash equities and fixed income to the TradElect platform on 15 February 2010. Members and their software providers are requesting more time for testing and necessary system adjustments in order to be comfortable and ready for go live. Based on this feedback Oslo Børs has decided to postpone the announced go live date.

Oslo Børs and the London Stock Exchange Group are currently in the process of adjusting the timetable, and will revert as soon as possible with more information.

Please note that the announced Dress Rehearsal Saturday 30 January will be cancelled.
