

Market Information Real Time

The Market Information Real Time product is a continuous data feed with real time updates of trading information for securities listed on Oslo Børs, Oslo Axess and Oslo Alternative Bond Market

Product overview

Market Information Real Time gives detailed information about the trading in equities, fixed income and derivatives listed on the marketplaces managed by Oslo Børs as well as Norwegian and Nordic (VINX) indices. The information is in consolidated form, and is presented in a transparent way across the different sources.

Information content

The Market Information contains detailed information on the following:

- Reference data such as ticker, isin and listing details
- Trades
- Calculated values such as high and low
- Order book (bid, ask and their respective quantities)
- News published through Oslo Børs Distribution Network
- Norwegian indices (levels and volumes)
- Nordic (VINX) indices (levels and volumes) *
- Top 20 shareholder lists *
- Primary insiders *

Delivery and distribution

The Market Information Real Time is delivered as a continuous data feed with an optional 0-15 minutes delayed distribution.

** available for Professional Level 2 subscribers only*
