

Admission to listing of preferential rights to subscribe for shares pursuant to Section 10-4 of the Public Limited Liability Companies Act

A standard form is provided below for the written report that must be submitted in the case of admission to listing of preferential rights to subscribe for shares pursuant to Section 10-4 of the Public Limited Liability Companies Act, cf. Listing Rules, Section 8.2, cf. Section 8.1 item 1.

Based on the written report submitted by the company, Oslo Børs may resolve to admit to listing preferential rights to subscribe for shares pursuant to Section 10-4 of the Public Limited Liability Companies Act, cf. Listing Rules, Section 8.2, cf. Section 8.1 item 1.

The written report must be sent to Oslo Børs no later than at the time the first draft of the prospectus is submitted to the prospectus authority, cf. Continuing Obligations, Section 8.2, (4) and Listing Rules, Section 8.2, (3). The company will receive a response to its written report from Oslo Børs within *five* trading days of its receipt by Oslo Børs. In a situation where a prospectus has been approved before the decision is taken to list the subscription rights, Oslo Børs must receive the written report no later than five trading days before the first day of listing of the subscription rights. In this case, the company will receive a response to its written report from Oslo Børs within *three* trading days of its receipt by Oslo Børs.

The further process through to admission to listing will then be agreed between the company (and/or its advisor) and the case officer at Oslo Børs.

The written report as mentioned above must be sent to Oslo Børs at the following e-mail address: prospekter@oslobors.no. The draft prospectus must be appended to the written report.

The written report may be submitted by the company, or by a party that is authorised to submit the written report on behalf of the company.

Oslo Børs will be responsible for deciding the ticker code for the rights, and will apply the following rules: The ticker code for rights to shares will be made up of the same ticker as the share/underlying + space + a letter determined by the type of right that is to be listed. Oslo Børs will notify the ticker code in its reply to the written report.

For the sake of good order, it should be noted that when rights are admitted to listing this triggers various duties in respect of the public disclosure of information that are stipulated in the Continuing Obligations for listed companies and the Listing Rules. Appendix 1 to the standard form for the written report to be submitted to Oslo Børs seeks to explain these requirements.

Standard form for the written report

Some of the sections of the form below provide guidance on information that must be provided by the company.

As a guidance has the exchange sought to include cross references to other provisions of Continuing Obligations and the Oslo Børs Listing Rules that may be relevant to the process involved in listing rights to shares.

Oslo Børs wishes to emphasize that the parties involved in listing rights to shares should in any case consult the full text of the Continuing Obligations and the Listing Rules.

If any of the information required to complete the form is not available at the time the written report is submitted, this must be explained together with information on when the final information will be submitted. Oslo Børs will not be able to make a decision on the admission of rights to listing until all the information required by the form is provided in full.
